La Corporation de Construction Tridôme  
3901 , rue Jean-Talon ouest, Suite 201  
Montréal, Québec  
H3R 2G4  
Attn: Mr. Robert Heckler

Dear Robert,

This month will signify the completion of one full year of operations of Alliance Steel Corporation in our newly expanded warehouse and offices. We would like to take this occasion to express to you our appreciation for the work done by Tridôme on this construction project which was undertaken by our affiliated company, Miglenca Realty Corp.

As you know, this was the first major construction project for either Miglenca or Alliance, and we were apprehensive about the possible problems inherent in this type of expansion. In addition, we were deeply concerned that the construction process would impede, or even worse, stop our production or shipping operations since the construction had to be done while we continued to operate at full capacity.

However, through careful coordination between our personnel and project manager, and the managing and supervisory staff of Tridôme, Alliance's shipping and production operations continued virtually uninterrupted. In fact, we are pleased to report that Alliance was able to increase its production and shipping compared to the previous year in spite of the construction.

In addition, we found that the Tridôme personnel, both on and off site, were pleasant, professional and experienced.

We look forward to doing more business with you in the future.

Yours truly,  
ALLIANCE STEEL CORPORATION

**Attention: Mr. Robert Heckler**

Dear Robert:

Your aggressive tender for our building project allowed us to perform, not only the original concept of 10,000 square feet of manufacturing space, but even a separate extension of 17,000 square feet of warehouse space not originally anticipated by the plans.

We were happily left undisturbed in our daily activities while the building process went on and were only really aware of any construction when the final connections were made in the last week.

You delivered the project three (3) weeks ahead of schedule with a minimum of extras, and this was a pleasant surprise from our first building project. We have had no difficulties with the work since then, and believed we achieved a high quality, inexpensive job.

We greatly appreciate your professionalism and efforts to help BECO grow.

Thank you,

Yours very truly,

**TRIDÔME CONSTRUCTION CORP.**  
3901, Jean-Talon Street West, Suite 201  
Montreal, Qc. H3R 2G4

Dear Mr. Heckler,

It has been approximately one full year since **TRIDÔME CONSTRUCTION CORP.** has completed the construction of our new facilities. We would like to take this opportunity to once again thank you and your staff for the resounding success of this project.

As you are aware, this was our first involvement in a major construction project, and my staff and myself were unsure of what to expect. From the outset of the project with the bidding process, you and your team showed imagination and cooperation, and identified **TRIDOME** as the legitimate low bidder. Through value-engineering efforts with Gross, Kaplin, Coviensky, Architects, after the bid, you were able to further reduce costs prior to the start of construction, which we greatly appreciated.

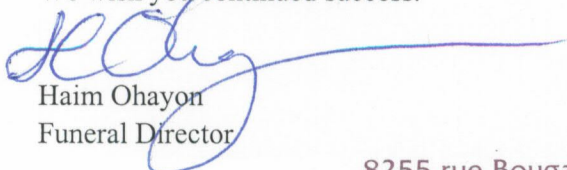

The attitude of your on site personnel and project managers allowed us to be convinced that you had the highest quality of the final product - along with reasonable costs, truly at heart. Although there were significant structural and architectural changes that occurred throughout the project (due to the change in concept in midstream of construction from a renovation to virtually a totally new building), your company never attempted to take advantage of the situation. **TRIDOME** always seemed most interested in a quality final product.

In addition, you were able to deliver the project two (2) weeks ahead of the agreed schedule. This was very significant for us as we were able to begin our operations ahead of time and increase our revenues.

During the year after the completion of the construction, a few minor items occurred which we had either forgotten or required modification and your staff diligently performed this work without fuss. **We really appreciated** this as we were told it is difficult to get small things done after the project is completed. This was not the case at all with **TRIDOME**.

All in all we were totally satisfied with the quality, timing and costs that your company provided to S.C.I. and in building our new facility. We would be most pleased to recommend **TRIDOME** to others searching for an excellent General Contractor and look forward to doing more business with your company in the future.

We wish you continued success.

---

Cher Monsieur Richard,

Mes associés et moi-même désirons vous remercier pour le professionnalisme que TRIDÔME et vous-même avez démontré tout au long des phases de design et de construction du projet d'agrandissement de notre immeuble par l'ajout d'un étage supplémentaire.

Pourtant, lors des discussions préliminaires sur ce projet, mes associés étaient réticents quant à faire réaliser celui-ci selon la méthode "clés en main", car ils craignaient des dépassements de budget. Cependant, les objectifs très stricts que nous avons arrêtés entre vous et nous quant au budget et à l'échéancier, ont été intégralement et scrupuleusement respectés par TRIDÔME.

Votre proposition était même tellement précise que nous nous sommes servi des chiffres que vous nous y donniez pour établir notre étude financière. Nous nous félicitons aussi d'ailleurs d'avoir suivi vos conseils avisés quant à la superficie de l'agrandissement.

De plus, malgré une simplicité apparente, ce projet était complexe. Effectivement, l'ajout de cet étage sur un bâtiment qui n'avait pas été conçu originellement pour supporter une telle charge, a nécessité le renfort des colonnes et des empattements intérieurs, ainsi que celui de la toiture. TRIDÔME a su trouver les solutions adéquates qui ont permis de réaliser ces travaux majeurs sans interrompre aucunement les activités de notre locataire.

A ce sujet, nous n'avons eu que des félicitations de celui-ci, le C.L.S.C. DE BOUCHERVILLE, pour la coordination très articulée de vos travaux qui lui a permis de poursuivre ses activités quotidiennes sans aucune interruption et ce, tant pour leurs employés que pour les patients.

Soyez assurés que nous n'hésiterons pas à faire de nouveau appel à vos services ainsi qu'à vous recommander chaleureusement si l'occasion s'en présentait.

Veillez croire, cher Monsieur Richard, à nos remerciements les plus sincères ainsi qu'à l'expression de nos sentiments les meilleurs.

Dear Frederic,

We have now completed with superb results the construction of our 65,000 s.f. Ste-Thérèse industrial complex, and everyone's efforts should be recognized.

We are very pleased with your design and ultimate product and will be very pleased to work with you again on future projects.

We have particularly appreciated TRIDOME's attention to details, their ability in implementing turn key approach solutions to maintain budgets, and their diligence in the activities towards the achievement of a schedule.

We hope to put all of our forces together again shortly and express our best regards.

Dear Mr. Levy:

I am writing to thank you for the fast, efficient, and professional association that we recently experienced with one of your recommended contractors.

Ceridian Canada Ltd. is undertaking a major upgrade to our communications network across Canada. The introduction of new and expanded equipment in five of our main branches across the country required that we do extensive remodeling in our Montreal branch, located at 8777 Trans-Canada Highway. The timing of this work was critical to the overall national scheduling for this project.

As the overseeing landlord for our building, I spoke to Adriana Meltzer from your office, looking for a recommendation as to whom I could contact to oversee the work required. The contractor that we decided to proceed with, was Tridome Construction. Robert Heckler and Pierre Hebert were both professional in their manner, and pro-active in their suggestions as to ways of improving our basic plan for the work involved.

Unbeknownst to me, the timeframe in which we had to complete this work was further jeopardized by the annual shutdown of the construction industry in Quebec, for the last half of July. This left us with just two weeks to initiate and complete the project of building a new, 156 sq. ft. telecommunications room in the covered parkade of our building. Robert and Pierre organized all construction, electrical, special anti-static floor coating, painting, and lighting. Additional work was done to arrange for the installation of a new, water-cooled A/C unit and humidifier, after the initial construction was completed. All of this work was expedited with accuracy and detail.

We are very pleased with results of this joint effort, especially since we have not met face-to-face with the people at Tridome, and all correspondence was done by phone and fax. Thank you for your recommendation of a high quality company such as Tridome. We would be pleased to endorse this company for any future work that we might require.

Sincerely,

**CERIDIAN CANADA LTD.**

Re: **Renovation and construction of our new retail store in London, Ontario**

---

Dear Mr. Heckler,

I take great pleasure in writing to congratulate **TRIDÔME CONSTRUCTION CORPORATION** for the excellent job performed on the renovation and construction of our new retail store at Masonville Mall in London, Ontario.

Please be assured that your team spirit, cooperation and professionalism are highly regarded and your meaningful contribution to the success of the Le Chateau project was appreciated indeed.

I would willingly attest to the quality of the work performed, **TRIDÔME's** ability to hold the original budget and deliver the project "on time".

I have no hesitation in recommending your company to anyone looking for a "top notch" general contractor.

Dear Robert:

I'm writing to let you know that we are most pleased with the major construction project you recently completed for us at 6617 St. Hubert St. in Montréal. The two new stores you built for us at that location - Soir de Paris Bridal Salon and Classy Formal Wear - are fine examples of quality workmanship.

I would like to add that our satisfaction goes beyond the end product itself since both stores were completed on time, within budget and with a minimum of the usual problems that accompany projects of this nature. As you know, our plans call for more construction projects throughout the next two years and Developpement 2001 will certainly be requested to bid on these.

Yours truly,

Dear Robert,

I am very pleased to be able to report that the problem regarding the doors to my and my partner's offices has been resolved to our entire satisfaction. You may recall that some restoration work by Gaetan Crepeau of ISHII DOORS resulted in an uneven and patchy finish. I am pleased to be able to tell you that even though the company was sold and new owners have now taken over, they have in fact honored this past work order commitment and have been good enough to take the doors back to their factory, refinish them and re-install them for a very modest sum of money with the result that I'm happy to say that I believe ISHII can be expected to give good "after-sale" service to other customers as well.

Sincerely,

Roy Curnick  
Chairman of the Board

Dear sir,

I would like to thank you for the excellent work your company performed in building our first hotel in Montreal.

From the outset in the negotiation period, TRIDOME's ingenious ideas for alternate methods with equivalent performance, allowed us to bring the project within our budget.

We especially appreciated the fact that it was built ahead of schedule and in only ten months of actual construction.

As in any construction project, there are always small problems and changes which occur. We are happy to state that your company responded to these issues efficiently and professionally and always with a view of keeping costs to a minimum, or finding ways to execute the changes without cost at all.

I have no hesitation in recommending your company to anyone looking for a top notch General Contractor.

Re: Suite 1340, 1 Westmount Square

Dear Mr. Archambault,

Our offices are everything we would expect from a first class AAA building. The process of leasing our space has been outstanding (two individuals must be recognized for their contributions and professionalism).

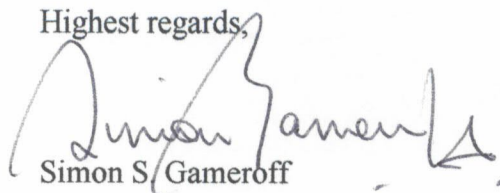

My brother and I are very particular and had been looking for 2 years for the right environment that would house our business. Dominique Saucier had the care and insight to know that Westmount Square could meet our stringent needs, He offered different spaces and worked with us to make this deal get done. He must be recognized for his diligence, knowledge and professional manner.

With the negotiations/leasing complete, it was time to tender the job. Out of 4 contenders - Tridôme was awarded the contract. Robert Heckler and Fouad Geara delivered our new office before the anticipated completion date, on budget and with the highest quality of workmanship. Tridôme's professional, thorough and well thought out renovation must be also recognized. We could not have asked for more.

Needless to say, we are extremely fortunate to have worked with both Dominique Saucier and the entire SITQ team, as well as the team at Tridôme.

We look forward to a long and successful future together.

Highest regards,

Simon S. Gameroff

Dear Robert,

This is to certify that Gildan Activewear has retained the services of Tridome Construction in four various projects since May 1996.

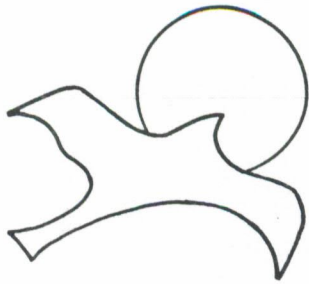

Tridome was the lowest cost bidder in all four projects. The projects included the expansion of modern textile facilities and was carried out efficiently and without interruption to our continuous operations. The cooperation between the two companies has been very effective and deadlines were met in all four projects.

We enjoy working with the Tridome staff, and we would not hesitate to recommend them at anytime. Please do not hesitate to contact the undersigned for further information.

Department Stores Ltée/Ltd.

9001 Louis H. Lafontaine, Anjou, Quebec H1J 2C5

May 15, 1996

La Corporation de Construction  
Tridôme  
3901, rue Jean Talon ouest,  
Suite 201  
Montreal, Quebec  
H3R 2G4

Our major 1995 expansion of 26 stores now complete, it is a time to pause and reflect upon this project.

From the time you approached our design team with your concept to built **ALL** the 26 stores, I must say we didn't believe your company could perform this monumental task. Having not been involved in true "construction projects" previously, we were very apprehensive to entrust only one company with such a major undertaking, and especially considering the very rapid delivery dates (all prior to August 7, 1995 - a total of only 14 weeks of construction schedule).

Furthermore, although we did know the general appearance we desired from each store, the construction program for each store was not even determined at the outset of construction.

To your staff's credit and meticulous coordination of Maria Latella and Robin Fortin, we were able to have the task successfully accomplished.

The management proposal which you suggested was not only fair, but permitted the maximum of flexibility which we required, for the minimum cost. Your "high-tech approach" to the physical difficulty of building **26 stores spread across three provinces** from Val d'Or, Quebec to Bay Roberts, Newfoundland was extremely efficient. The continuous fax/phone/computer connection coupled with the private plane which you leased at our disposal, made all the difference.

Although we required our own staff to keep up" with yours, it was a very mutual effort.

All details were handled meticulously, and your accounting procedures and back-up were simple, effective and extremely efficient.

The complex task required creating a program of construction for each store while the actual construction was ongoing. Your superintendent's chosen for each store location were by and large well chosen and knowledgeable.

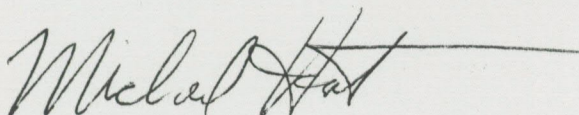

The construction schedule was respected and all stores were delivered in plenty of time for our fixturing and scheduled openings.

Several stores had major works which were to be the responsibility of the landlord, yet your company undertook this additional work in order to ensure the store's timely delivery. This was most commendable. We were most pleased with your company's creativity, ingenuity and hard work approach to a most complicated management and construction problem. TRIDÔME accomplished a monumental task in the performance of this project and allowed our company to grow and unprecedented rate.

We sincerely thank-you and look forward to doing other projects together.

Yours sincerely,

Hart Department Stores

RE: EXTENSION TO THE EXISTING BUILDING

Dear Mr. Heckler,

We have now completed with good results the construction of the extension to our existing building located at 5795, de Gaspé in Montreal and everyone's efforts should be recognized.

We were happily left relatively undisturbed in our daily activities while the building process went on, and were only really aware of any construction when the final connections were made in the last week.

The professionalism and cooperation of TRIDÔME CONSTRUCTION CORPORATION were the direct results of minimizing disruption of programs and services during construction.

The design-build aspect of the project meant that <<no extra's>> would be considered. Happily your company respected this demand and came up with creative solutions to any minor problems or changes. We are particularly pleased with the attention to detail they gave to matching the structure and finished appearance, both interior and exterior, of our existing building, and certainly will not hesitate to involve TRIDÔME in our next expansion plans.

I would willingly attest to the quality of the work performed and take this opportunity to thank you and your team for a job extremely well done.

Warmest Regards,

Objet : *Projet d'extension du marché d'alimentation IGA Quintal à Ste-Rose, Laval*

Monsieur Heckler,

C'est avec plaisir que nous prenons cette opportunité pour féliciter la **CORPORATION DE CONSTRUCTION TRIDÔME** pour son professionnalisme et pour son excellent travail lors de l'exécution de notre projet d'extension.

Un projet difficile au départ, en raison de la complexité des travaux. Ce dernier est devenu encore plus complexe lors de changements majeurs modifiant ainsi une bonne partie des travaux. Ces travaux ont été modifiés selon 32 changements, d'ailleurs ces modifications ont été discutées et finalisées, sans difficultés; par les deux parties impliqués, à des coûts très raisonnables.

Malgré ces contre-temps, **TRIDÔME** a su réagir professionnellement et a exécuté les travaux ainsi que les modifications tout en suivant l'échéancier déjà très serré, c'est-à-dire 9 semaines.

**TRIDÔME** a dû mobiliser à quelques reprises, jusqu'à deux équipes, en plus d'exécuter certains travaux en temps supplémentaire, et ce sans charge additionnelle.

L'Équipe de **TRIDÔME**, conjointement avec vos sous-traitants, les professionnels et nous-mêmes, a su réaliser ce projet difficile en tout gardant notre commerce opérationnel et en limitant les inconvénients pour notre fidèle clientèle.

Nous tenons donc à féliciter **TRIDÔME** et toute son équipe, de même que son surintendant de chantier M. Robin Fortin. Soyez assurés que nous n'hésiterons aucunement à recommander votre compagnie.

Veuillez bien accepter, Monsieur Heckler, mes salutations les meilleures.

**IKEA Warehouse Expansion-Brossard**

Dear Robert,

Now that both of the projects mentioned above are successfully completed, I thought I would take this opportunity to express our appreciation for the effort put forth by your company.

As you know both project were completed on time and within their respective budget constraints. Needless to say that both projects were well received within the North American organization.

Although your entire staff is to be commended for excellent performance I feel it is appropriate to single out two individuals within your organization.

We thank Mr. Fouad Geara for his excellence in putting together the power point presentations as well as his endless hours of work exhibited in producing the phasing and overall schedule on both projects. Furthermore his attention to details as the projects evolved was a great contributor to the final result.

Our accolades go to Mr. Pierre Hebert the Project Manager. His professionalism, leadership skills commitment and devotion from start made the whole difference. We would not hesitate for a moment should we have the opportunity to work together again with Pierre. Congratulations!

Again we thank you for a job well done and we would be looking forward to future opportunities of working together.

Sincerely Yours,

A handwritten signature in black ink, appearing to be "H. Goldstein", written over a horizontal line.

Haim Goldstein, P.Eng.  
Construction Manager
